## MESSAGES

*The mid-point of Accountability Cycle 2006 does not mark a biennium. District and school performance judgments, school recognition points and pacesetter school status are not reported.*

### GENERAL INFORMATION

#### **DISTRICT**

District data are an aggregate of the individual student data from the elementary, middle and high schools.

#### **GRADE**

P = Primary Grades.  
04...12 = Grade 04 through Grade 12.

#### **RCG (Recognition Points)**

Number of recognition points school has passed in Accountability Cycle 2006.  
Asterisk (\*) identifies schools who have not met the dropout and novice reduction requirements and are not eligible for rewards.

#### **PACE (Pacesetter schools)**

Y = Pacesetter school

#### **NOTE**

- a = School's service area changed. The school is held accountable through the district accountability scores.
- c = School is accountable through school's scores and district non-academic data for the baseline years.
- d = School is a reconfigured. The school is held accountable through school results and district growth line, district assistance line, and district novice reduction rate.
- e = Reconfigured School or New School in this school year. The school's first accountability biennium index is the two-year average of the school's scores and the district's non-academic index at the corresponding grade level. The goal line, assistance line and novice reduction rate are calculated from the school's scores and district non-academic data for the baseline years.
- f = Reconfigured School that is using the District Baseline (goal) for Accountability. School's baseline index, goal line, assistance line and novice reduction rate are based on district scores at the high school level. Due to incomplete non-academic data, district non-academic data are used to calculate the school's non-academic index. This is a special case for new high schools that do not have all grades in the prior year.
- r = School is considered a reconfigured school and the student population is reconstituted for calculation of accountability scores.
- s = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.
- w = State Board approved school configuration waiver for calculation of accountability scores.

### RELATED TERMS

#### **Recognition Points**

A special one-time reward amount is given to schools as they meet or exceed recognition points -- 55, 66, 77, 88 and 100 -- on the CATS 140-point scale. When a school passes a recognition point, it receives one share of reward money.

#### **Pacesetter Schools**

The highest-scoring five percent of all schools are called Pacesetter Schools. This designation applies only after they have reached the fourth recognition point (88) and if they have met the dropout rate and novice reduction requirements.

#### **Dropout Rate Requirements**

To be eligible for rewards, a school must have an average dropout rate of less than 5.3 percent over the biennium or an average rate that is at least one-half of one percent lower than its average rate of the previous biennium. However, schools with biennial average dropout rates above six percent will not receive rewards.

#### **Novice Reduction Requirements**

To be eligible for rewards, a school must reduce its percentage of novices so that, by 2014, it has five percent or fewer of its students in the novice category.
